Hakkımızda

About us

1984 yılında faaliyete başlayan **Akseki Yapı**, alüminyum sistem çözümleri alanında yenilikçi yaklaşımlarıyla öne çıkan bir firmadır. Geniş ürün portföyümüzde; **panjur ve kepenk sistemleri, alüminyum kapı ve pencere sistemleri, alüminyum cephe sistemleri, gölgelendirme ve camlama çözümleri** ile **PVC kapı-pencere sistemleri** yer almaktadır. Yüksek üretim kapasitemiz ve geniş ürün yelpazemizle Türkiye çapında binlerce müşteriye, uluslararası arenada ise **60'tan fazla ülkeye ihracat** yaparak sektör liderleri arasında yer almaktayız.

2023 yılında kurulan **Rigel Alüminyum A.Ş.** firmamız ile alüminyum ekstrüzyon üretimine adım atarak, büyüme stratejilerimizi daha da güçlendirdik. Bu yatırım sayesinde, müşterilerimize daha kapsamlı ve sürdürülebilir çözümler sunarken, uzman kadromuz ve teknolojik altyapımızla kalite ve müşteri memnuniyetini her zaman ön planda tutuyoruz. Böylece yapı sektöründe öncü konumumuzu koruyarak, yenilikçi projelerle fark yaratmaya devam etmeyi hedefliyoruz.

Akseki Yapı, established in 1984, is a company that stands out with its innovative approaches in the field of aluminum system solutions. Our extensive product portfolio includes **roller shutter systems, aluminum door and window systems, aluminum façade systems, shading and glazing solutions**, as well as **PVC door and window systems**. With our high production capacity and diverse product range, we serve thousands of customers across Turkey and export to more than 60 countries worldwide, solidifying our position among the industry leaders.

In 2023, we strengthened our growth strategies even further by stepping into aluminum extrusion production with the establishment of our company, **Rigel Alüminyum A.Ş.** This investment enables us to offer more comprehensive and sustainable solutions to our customers while maintaining our commitment to quality and customer satisfaction with our expert team and advanced technological infrastructure. Thus, we aim to preserve our leading position in the construction sector and continue to make a difference with innovative projects.

Hedeflerimiz ve İlkelerimiz

Our Goals and Principles

Ana Sermayemiz
Main Capital of Us

Akseki Yapı, kurulduğu günden bugüne kadar her zaman personeliyle birlikte tüm alanlarda adil olmayı amaçlamıştır. Müşterilerinden, bayilerine, rakiplerinden, toplumun her bir bireyine kadar adil, hakkaniyetli, saygın ve devamlılık esaslı hizmet sunmayı hedef edinmiştir.

Kalite, standart, güvenilirlik...

Akseki Yapı'nın çalışanlarından başlayıp bayilerine kadar devam eden kurumsal anlayışının en temeli; ürün ve hizmetlerinin kalitesini standartların üzerinde tutmak ve markalarının güvenilirliğini her daim korumaktır.

Saygınlığımız ana sermayemizdir...

Saygınlığı her şeyin üstünde tutan **Akseki Yapı**, sektörde ilk tercih edilen firma olmayı, müşteri memnuniyeti sağlamayı; insana, doğaya ve çevreye saygılı olmayı ana ilkeleri olarak belirlemiştir.

***Akseki Construction**, has always meant to be just in all areas together with its personnel since its establishment. It has aimed to provide just, fair, reliable and sustainability based services for each and every individual of the society from its customers and vendors to rivals.*

Quality, standard, reliability...

The basis of the corporate insight of Akseki Construction that begins from its employees and continues to its vendors is to keep the quality of its products and services beyond the standards and forever maintain the reliability of its brands.

Our reputation is our major capital...

*Valuing reputation above everything else, **Akseki Construction** determined its main principles as being the most preferred firm in the industry, fulfilling customer satisfaction, and being respectful to mankind, nature and environment.*

Alüminyum Ekstrüzyon Tesisi

Aluminium Extrusion Facility

Alüminyum profillerimiz, ekstrüzyon sistemlerine özel markamız Rigel tarafından, ileri teknoloji ve otomasyonla üretilmekte; bu sayede uzun ömürlü dayanıklılık, hassasiyet ve yüksek üretim verimliliği sağlanmaktadır.

Our aluminium profiles are produced by Rigel, our specialised brand for extrusion systems, using advanced technology and automation. This ensures long-lasting durability, precision, and high production efficiency.

Pergola Tesisi

Pergola Production Facility

Pergola sistemlerimiz, yüksek dayanımlı alaşımli alüminyum profiller ve paslanmaz çelik (inox) aksesuarlarla üretilmekte olup, uzun ömürlü kullanım ve sağlamlık sunar. Renk ve tasarım açısından geniş bir yelpazeye farklı mimari ve estetik beklentilere hitap eder.

Our pergola systems are manufactured using high-grade alloyed aluminium profiles and stainless steel components, ensuring both strength and long-term durability. We offer a wide range of colour and design options to meet diverse architectural and aesthetic preferences.

Panjur Üretim Tesisi

Roller Shutter Production Facility

Panjur sistemlerimizi oluşturan tüm ürünler, tesisimizde bulunan çeşitli makinelerle tamamen kendi bünyemizde üretilmektedir. Müşteri taleplerine bağlı olarak, profil halinde veya montaja hazır şekilde üretim çeşitliliği sunmaktayız. Üretilen her ürün grubu, diğer tamamlayıcı ürünlerle uyum sağlayacak şekilde tasarlanmakta; dayanıklılık, işlevsellik ve kalite standartlarından ödün verilmeden üretilmektedir.

All components of our shutter systems are produced in-house using a wide range of specialized machinery within our facility. Depending on customer requirements, we offer both profile-based and fully assembled product options. Each product group is carefully designed to be compatible with complementary parts, ensuring durability, functionality, and consistent quality without compromise.

Toz Boya Tesisi

Powder Coating Facility

Ürünler boyama öncesinde kimyasal havuzlarda işlemden geçirilerek yüzey hazırlığı tamamlanır. Ardından müşteri taleplerine göre ileri teknoloji elektrostatik toz boya hattında boyanarak fırınlanır. Bu sayede dış etkilere dayanıklı ve uzun ömürlü yüzeyler elde edilir. Ayrıca tesisimizde, alüminyum ürünlere ahşap görünümlü desenler uygulayabilen ahşap transfer hattı da bulunmaktadır.

All products are pre-treated in chemical baths before coating to ensure proper surface preparation. They are then painted in various colours, based on customer preferences, using advanced electrostatic powder coating lines. This results in surfaces that are highly durable and resistant to external factors. Our facility also includes a wood-effect transfer line for producing aluminium parts with wood-like finishes.

1- Uygun ölçüm aleti seçilmelidir. (Şerit-Lazer Metre vb.)
Choosing the suitable measuring device.

2- Panjur montaj yöntemi belirlenmelidir. Artı Kutu-Artı Dikme(+K+D) Eksi Kutu-Eksi Dikme(-K-D)
Deciding the method of assembly.

3- Montaj yerinde tadilat yapılması gerekiyorsa tadilattan sonra ölçü almaya başlanmalıdır.
If renovation is required at assembly area, you should measure after renovation process.

YÜKSEKLİK ÖLÇÜSÜ : (Height Dimension)

● Şekildeki gibi 3 ayrı noktadan ölçü alınmalıdır.
Measuring from 3 different points as a technical drawing.

● En kısa ölçü baz alınmalıdır.
Measures should be taken at short dimension base.

● Belirlenen montaj yöntemine göre kutu payları belirlenmelidir.

Kutu Hariç (+Kutu/Box)

Kutu Dahil (_Kutu/Box)

The box detail should be determined, according to the selected installation method.

GENİŞLİK ÖLÇÜSÜ : (Width Dimension)

● Şekildeki gibi 3 ayrı noktadan ölçü alınmalıdır.
Measuring from 3 different points as a technical drawing.

● En kısa ölçü baz alınmalıdır.
Measures should be taken at short dimension base.

● Belirlenen montaj yöntemine göre dikme payları belirlenmelidir.

Dikme Hariç (+Dikme/Guide Channel)

Dikme Dahil (-Dikme/Guide Channel)

The guide channel detail should be determined, according to the selected installation method.

Dıştan Takma Otomatik Makara Panjur

Exterior Box with Automatic Strap Rolling Shutter Installation

- 1- KUTU ARKA / Bottom Box
- 2- KUTU ÖN / Top Box
- 3- YAN KAPAK / End Cap
- 4- RULMAN / Ball Bearings
- 5- BORU BAŞI / Cap of Tube
- 6- KASNAK / Pulley
- 7- TAMBUR / Tube
- 8- ÇELİK ASKI / Security Spring
- 9- OTOMATİK MAKARA / Automatic Strap

- 10- DİKMELİ "U" BAŞI / Entry Guide
- 11- YAN RAY / Guide Channel
- 12- TAPA / PVC Cap
- 13- LAMEL / Slat
- 14- EXTRÜZYON ALT PARÇA / Extrusion End Slat
- 15- ALT PARÇA CONTASI / End Slat Gasget
- 16- STOPER / Stopper
- 17- KORDON YÜZÜĞÜ / Strap Guide

Dıştan Takma Motorlu Panjur Kurulumu

Exterior Box with Tubular Motor Rolling Shutter Installation

- 1- KUTU ARKA / Bottom Box
- 2- KUTU ÖN / Top Box
- 3- YAN KAPAK / End Cap
- 4- RULMAN / Ball Bearings
- 5- BORU BAŞI / Cap of Tube
- 6- MOTOR / Motor
- 7- TAMBUR / Tube

- 8- ÇELİK ASKI / Security Spring
- 9- DİKMELİ "U" BAŞI / Entry Guide
- 10- YAN RAY / Guide Channel
- 11- TAPA / PVC Cap
- 12- LAMEL / Slat
- 13- EXTRÜZYON ALT PARÇA / Extrusion End Slat
- 14- ALT PARÇA CONTASI / End Slat Gasket

Dıştan Takma Motorlu KepenK Kurulumu

Exterior Box with Tubular Motor Door Installation

- 1- KUTU ARKA / Bottom Box
- 2- KUTU ÖN / Top Box
- 3- YAN KAPAK / End Cap
- 4- RULMAN YATAĞI / Bracket
- 5- RULMAN / Ball Bearings
- 6- BORU BAŞI / Cap of Tube
- 7- MOTOR / Motor
- 8- TAMBUR / Tube

- 9- ÇELİK ASKI / Security Spring
- 10- DİKMELİ "U" BAŞI / Entry Guide
- 11- YAN RAY / Guide Channel
- 12- TAPA / PVC Cap
- 13- LAMEL / Slat
- 14- EXTRÜZYON ALT PARÇA / Extrusion End Slat
- 15- ALT PARÇA CONTASI / End Slat Gasget

Dıştan Takma Redüktörlü Motor Kepenk Kurulumu

Exterior Box with Manual Override Motor Door Installation

1- KUTU ARKA / Bottom Box

2- KUTU ÖN / Top Box

3- YAN KAPAK / End Cap

4- UCF / UCF

5- AYARLANABİLİR BORU BAŞI / Adjustable Cap of Tube

6- MOTOR / Motor

7- TAMBUR / Tube

8- ÇELİK ASKI / Security Spring

9- REDÜKTÖR ARA KOL / Joint

10- REDÜKTÖR KOLU / Hand Crank

11- DİKMELİ "U" BAŞI / Entry Guide

12- YAN RAY / Guide Channel

13- TAPA / PVC Caps

14- LAMEL / Slat

15- EXTRÜZYON ALT PARÇA / Extrusion End Slat

16- ALT PARÇA CONTASI / End Slat Gasget
